# WHAT IS AUGMENTED REALITY?

# aug·men·ted re·al·i·ty

*noun*

Superimposing computer graphics onto a live view of the world. Also known as “AR”

# KEY CAPABILITIES OF AR

## Visualize

**Enhance** the user's **view** of the physical world with the overlay of **real-world** or **hypothetical digital information**:

- IoT data
- Digital models
- Third-party data
- Business systems information

## Instruct/Guide

**Train or guide** users on how to perform a task through the overlay of **digital instructions** or **real-time expert guidance**

- Real-time transfer of knowledge and expertise
- Digital step-by-step instructions to guide user

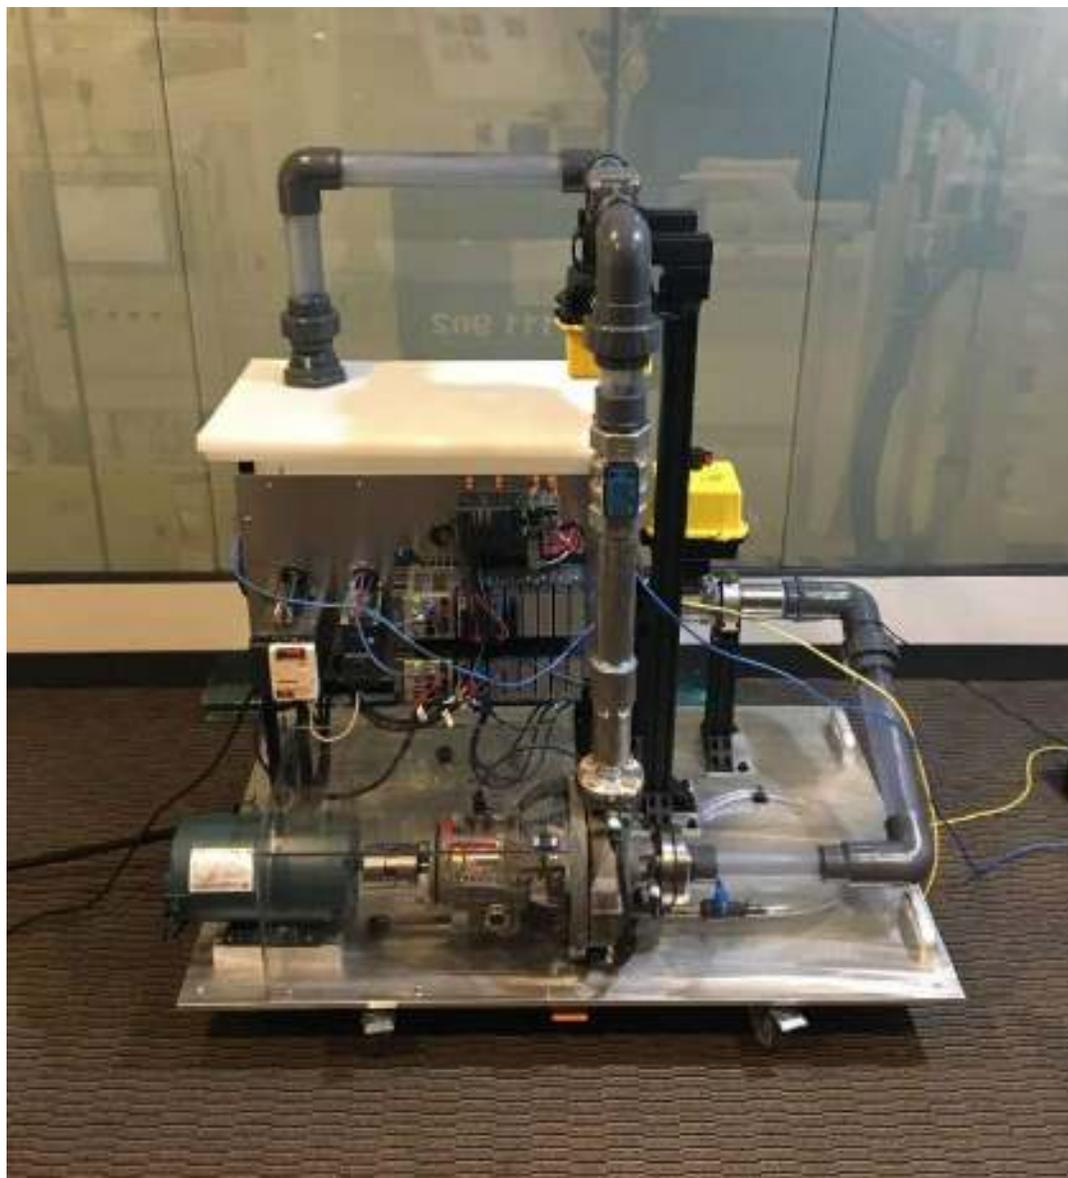

## Interact

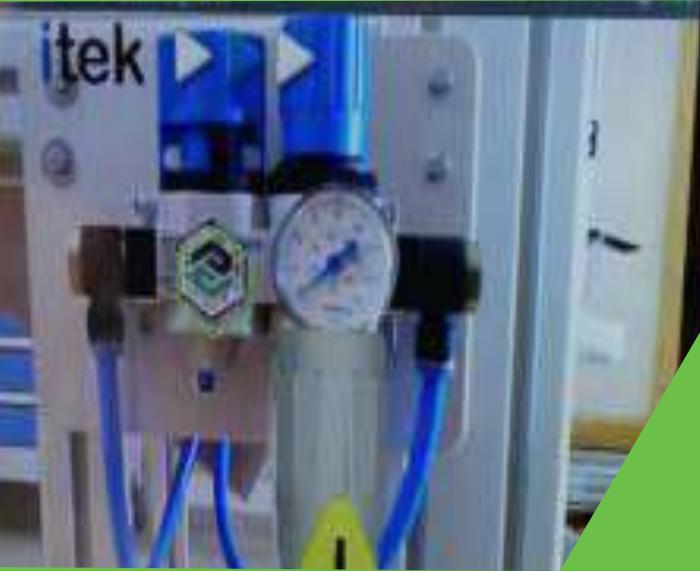

**Manipulate** digital graphics or extend a product interface through an **AR interface**

- Expand and customize control of product functions
- Modify digital designs
- Enhance physical products with digital experiences

# DEMONSTRATIONS

- HBR Article Handouts
- Tagged and Tagless Recognition
- Chalk and [Chalk for Business](#)

Studio was even better than I imagined. I was able to use it to quickly create AR experiences. Really easy to do. Great job.”

- Uwe Hertweck,  
Mechanical Engineer

# ThingWorx Studio

## FREE Trial

Over **7,000** Participants

Create your own AR experiences in minutes:

- 30-day access via Trial Portal
- Quick-start guides and tutorials
- Community support

## AR / IOT STRATEGY

**JIM HEPPELMANN**  
president and ceo, ptc

How is PTC focusing our attention?

November 2014

*Value creation from  
Smart, Connected  
Products*

October 2015

*New organizational  
and operational  
paradigms from Smart,  
Connected Products*

November 2017

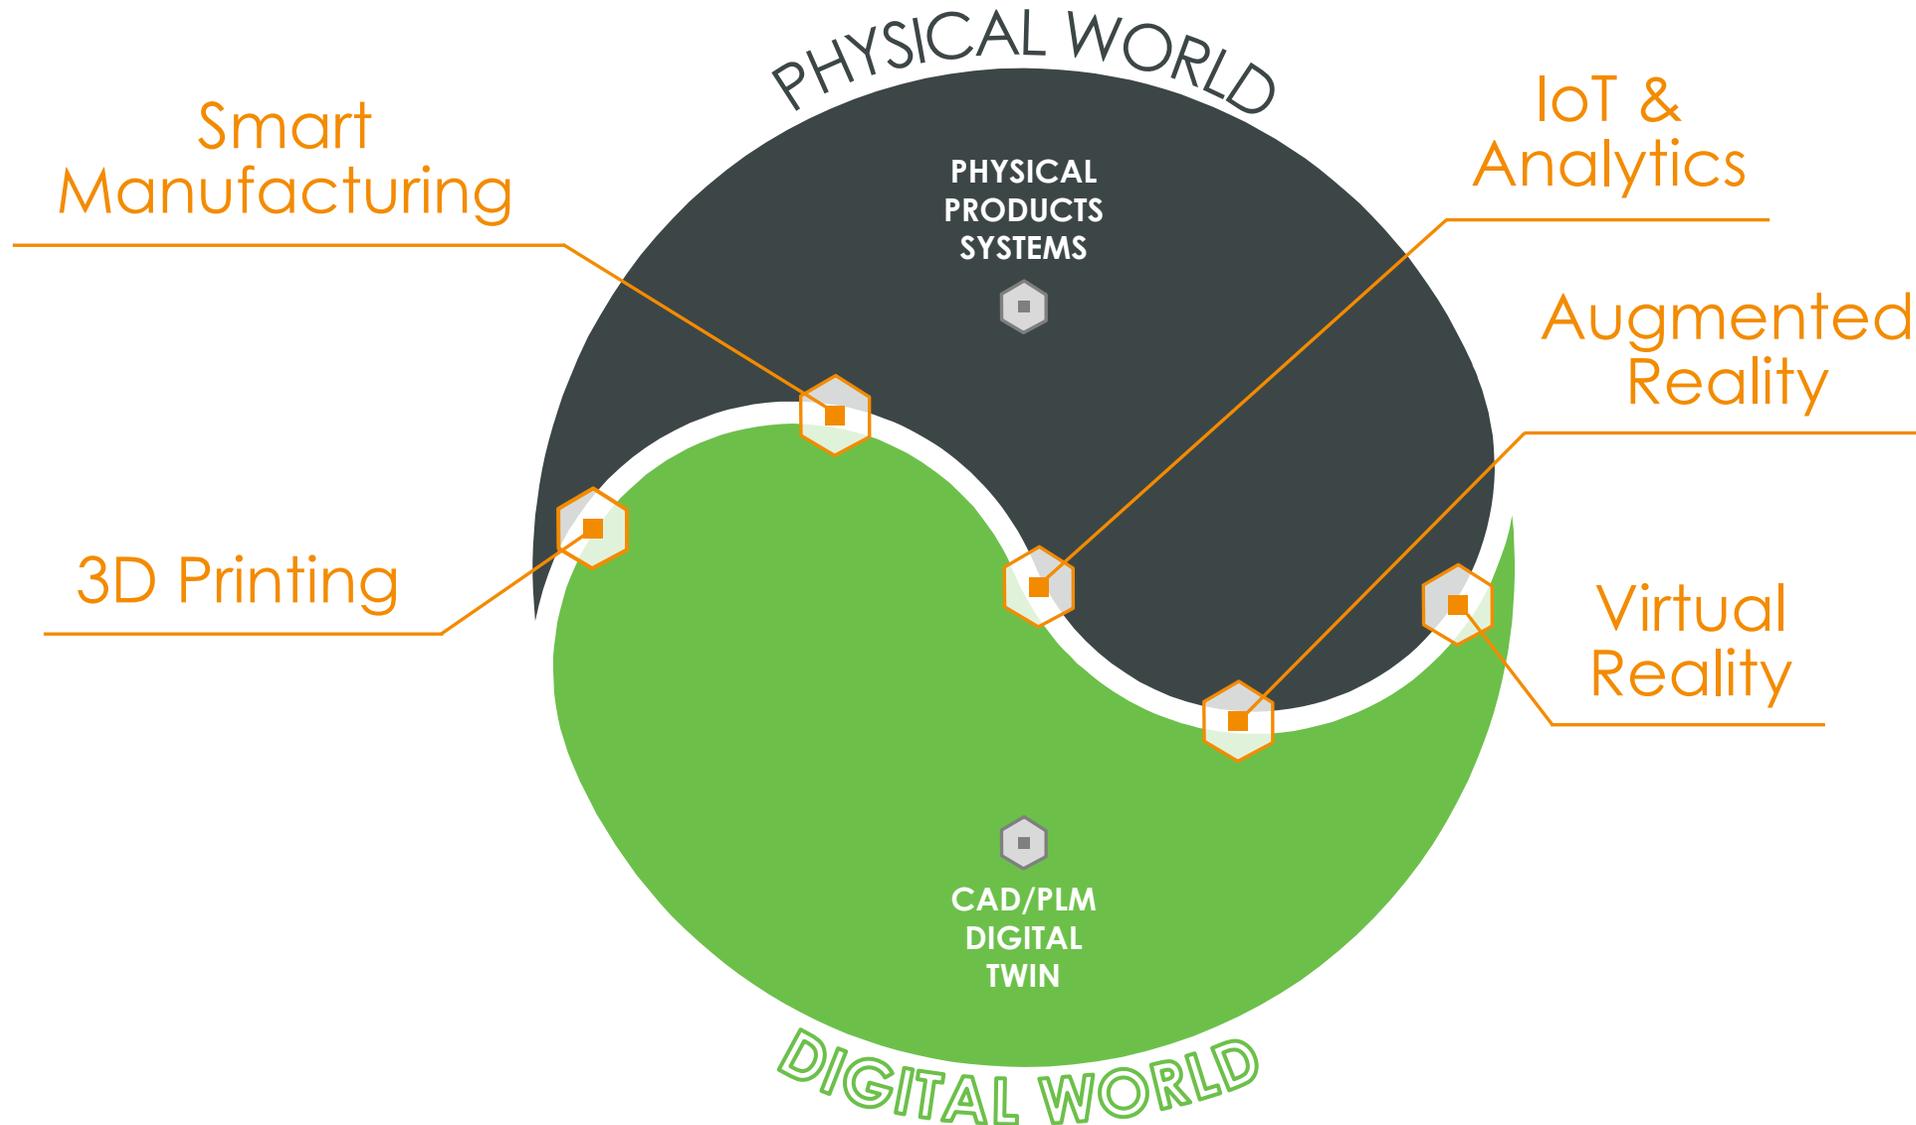

*New business  
strategies and  
assessment of the  
impact of AR*

IOT, AR, and Industrial Innovation Resources from PTC

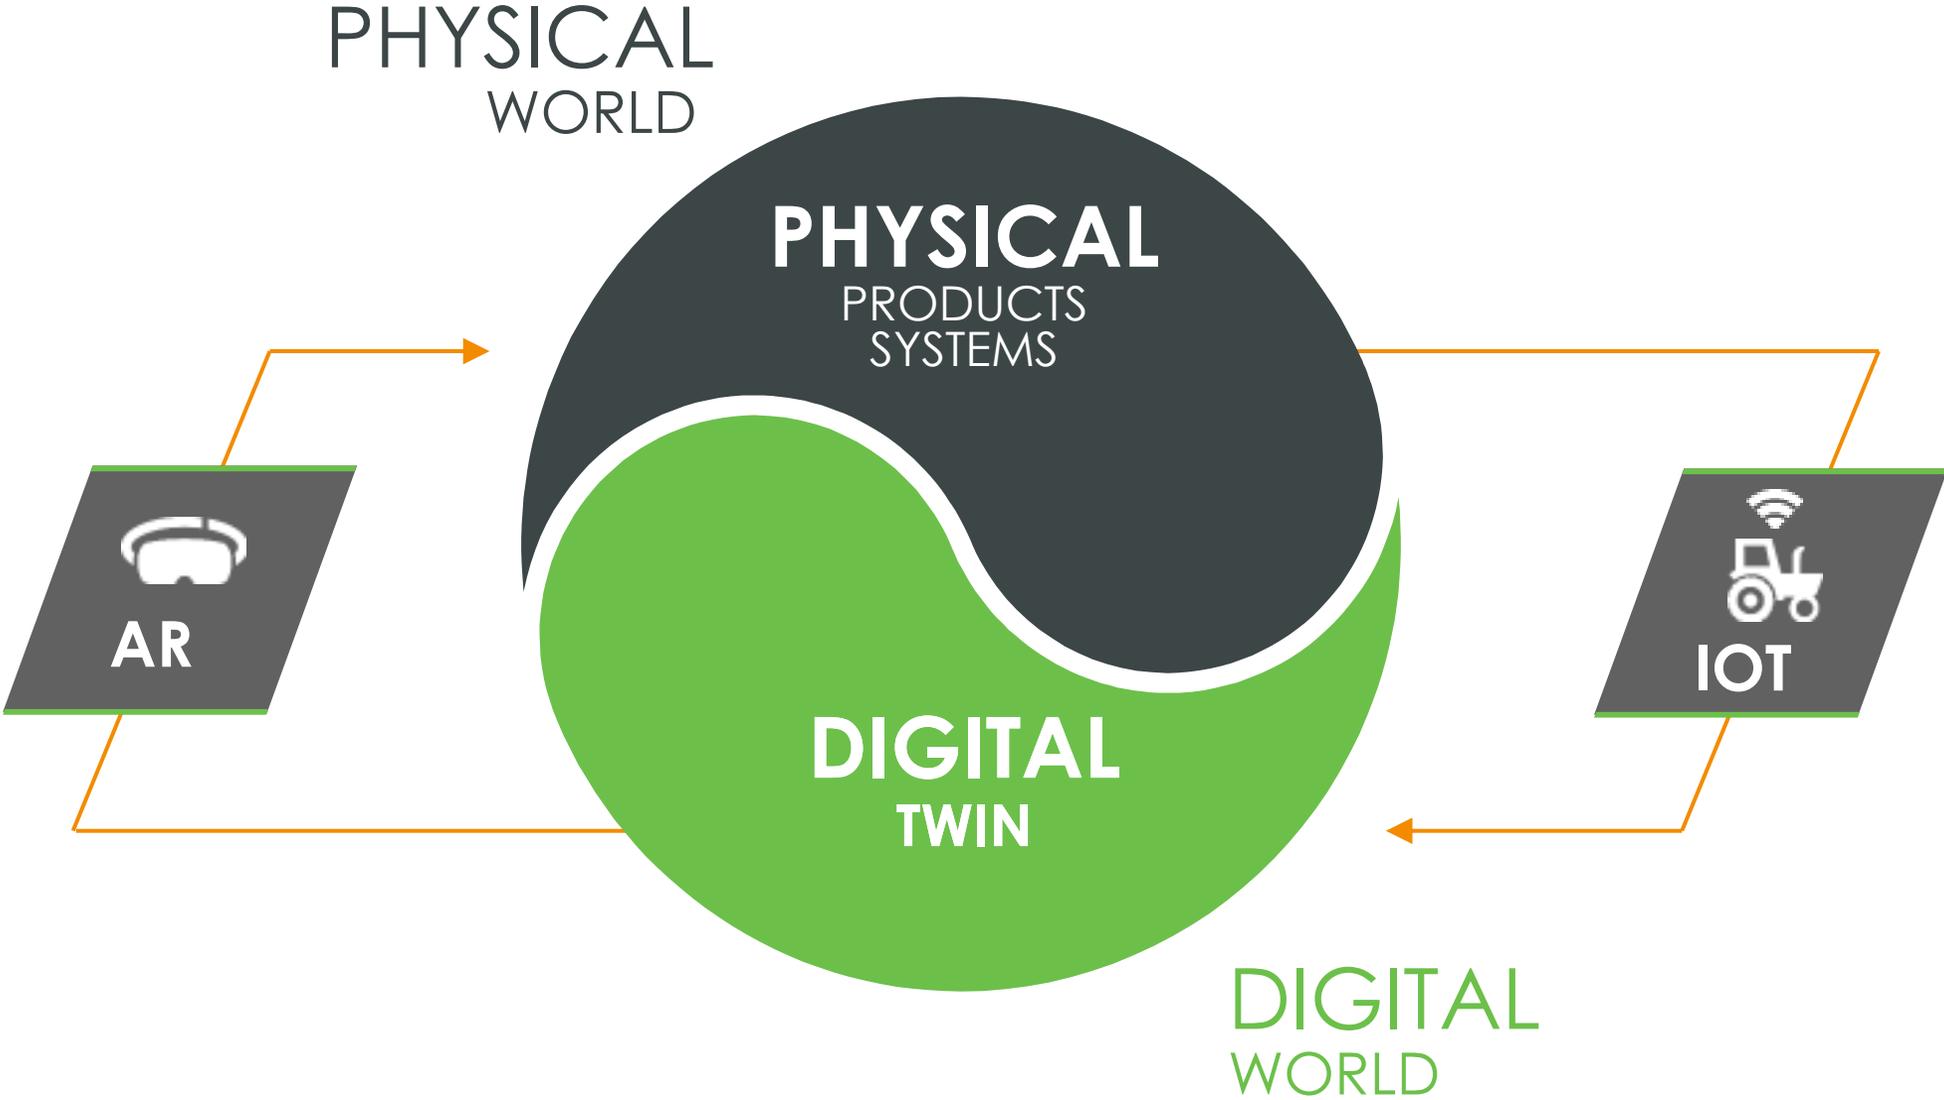

# PHYSICAL DIGITAL CONVERGENCE

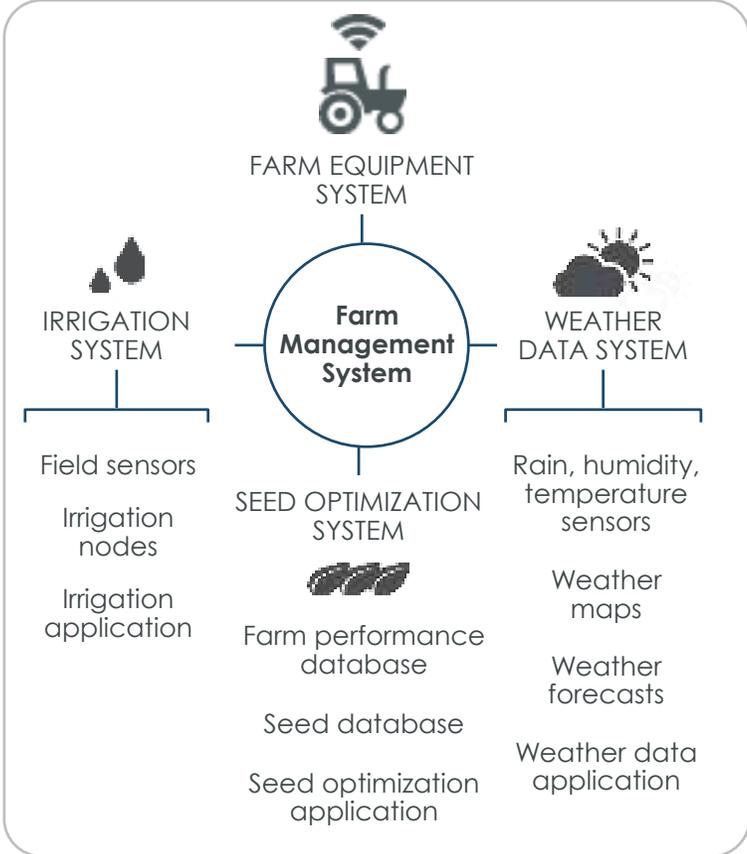

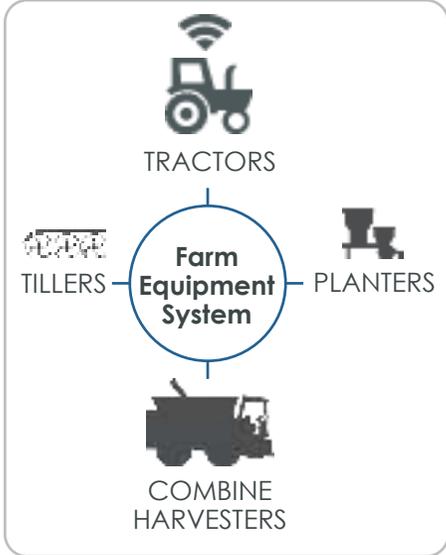

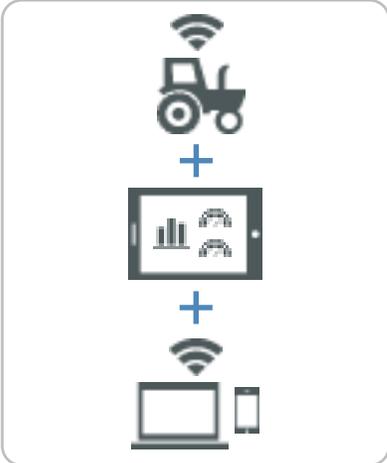

# THE NEW FRONTIER OF INNOVATION

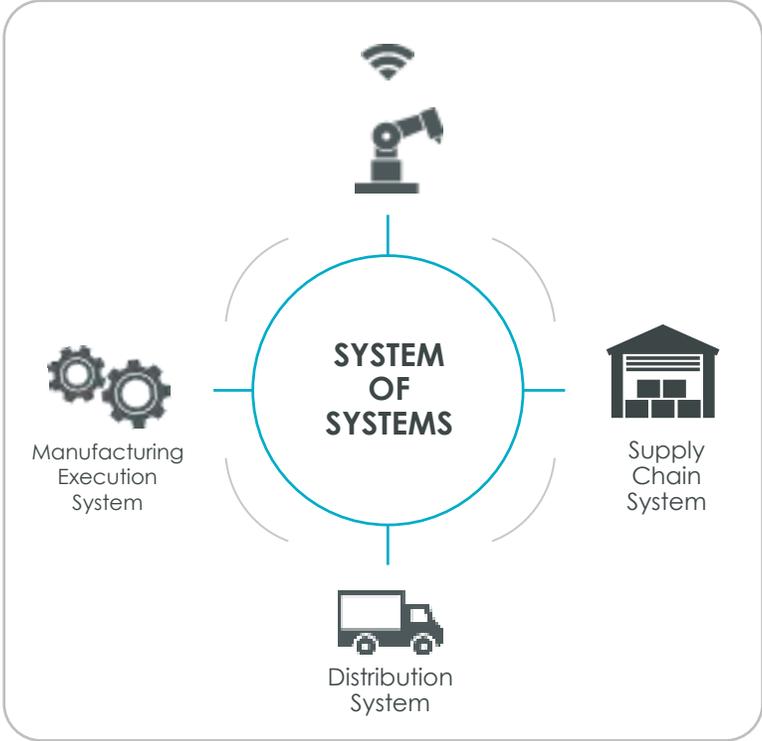

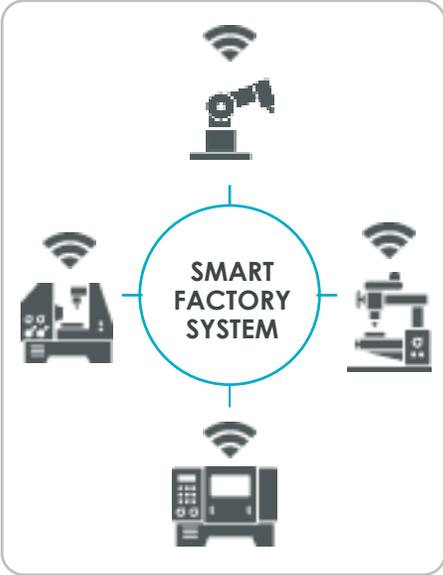

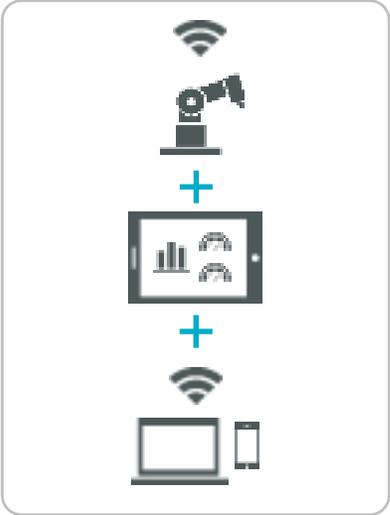

# DELUGE OF DATA REQUIRES A NEW HUMAN INTERFACE

# IOT AND AR CHANGE COMPETITION - ASSETS

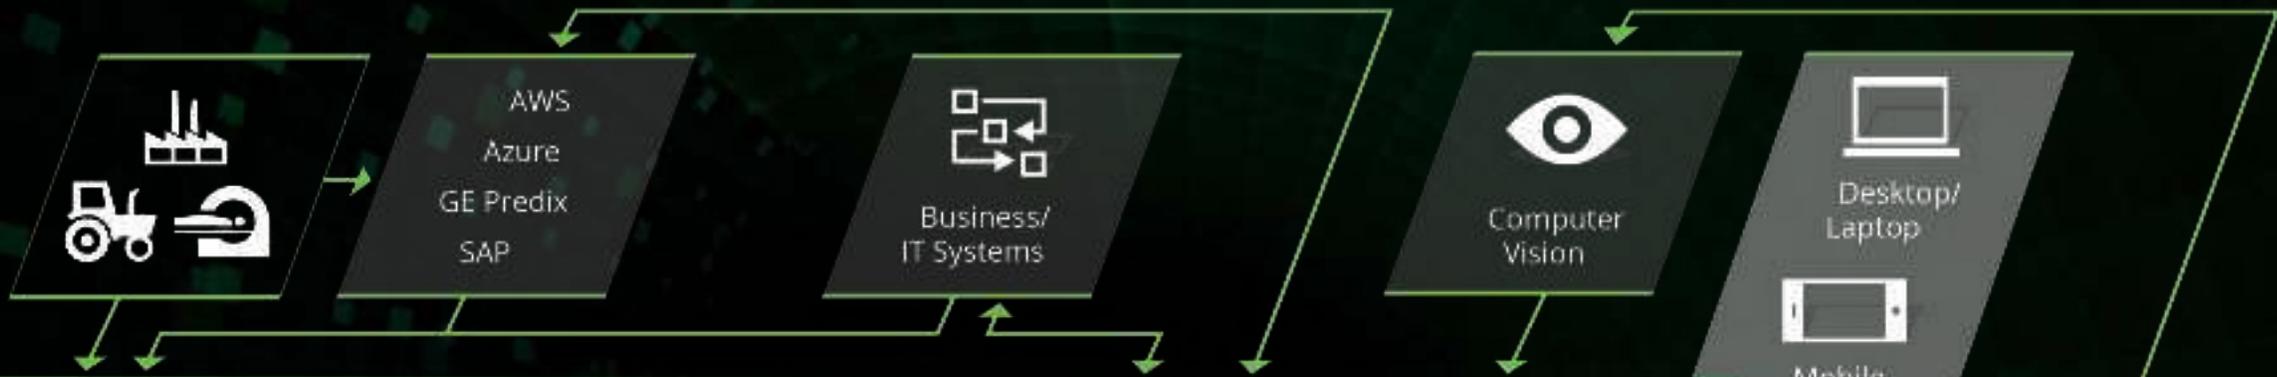

# IOT AND AR CHANGE COMPETITION - FACTORIES

# VALUE OF AR ACROSS THE ENTERPRISE

 DESIGN	 MANUFACTURE	 SELL	 SERVICE	 TRAIN	 OPERATE
Collaborative Design Review	Maintenance Work Instructions	Virtual Product Demonstration	Service Manual & Instructions	Job-specific Training	Head-up Display
Digital Design Review	Performance Dashboards	Augmented Brand Experience	Service Inspection & Verification	Safety & Security Training	Augmented Operator Manual
Augmented Interface	Operator & Assembly Work Instructions	Retail Space Optimization	Remote Expertise	Expert Coaching	Augmented Interface

**/ SOURCE / CONTEXTUALIZE / SYNTHESIZE / ORCHESTRATE / ENGAGE /**

Model

Digitize via scan, photo, or video

# DEEPER ASPECTS OF EACH PHASE OF INNOVATION

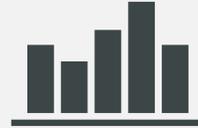

## SOURCE

- Connect Anything – Remote Device to Enterprise System
- Industrial Protocol Drivers Powered by Kepware
- Native Cloud Support – AWS, Azure, Predix, and More

## CONTEXTUALIZE

- Transform Physical to Digital Through Visual Application Modeling
- Any data – in motion, in use, or at rest
- Singular Data Representation

## SYNTHESIZE

- Native integrated Anomaly Detection
- Improve future performance and results with automated prescriptions and simulations
- Easily incorporate 3<sup>rd</sup> party simulation tools for richer digital twin

## ORCHESTRATE

- Deploy Anywhere – Edge to the Enterprise
- Asset Provisioning & Content Management
- Visual Alert & Rules With Workflow Management
- UX Builder for Web, Mobile and AR

## ENGAGE

- Compelling visualization for mobile and AR/VR
- Rich 3D animation and IoT data for experience creation
- ThingMarks for unique AR experiences for each associated device

## SCALE

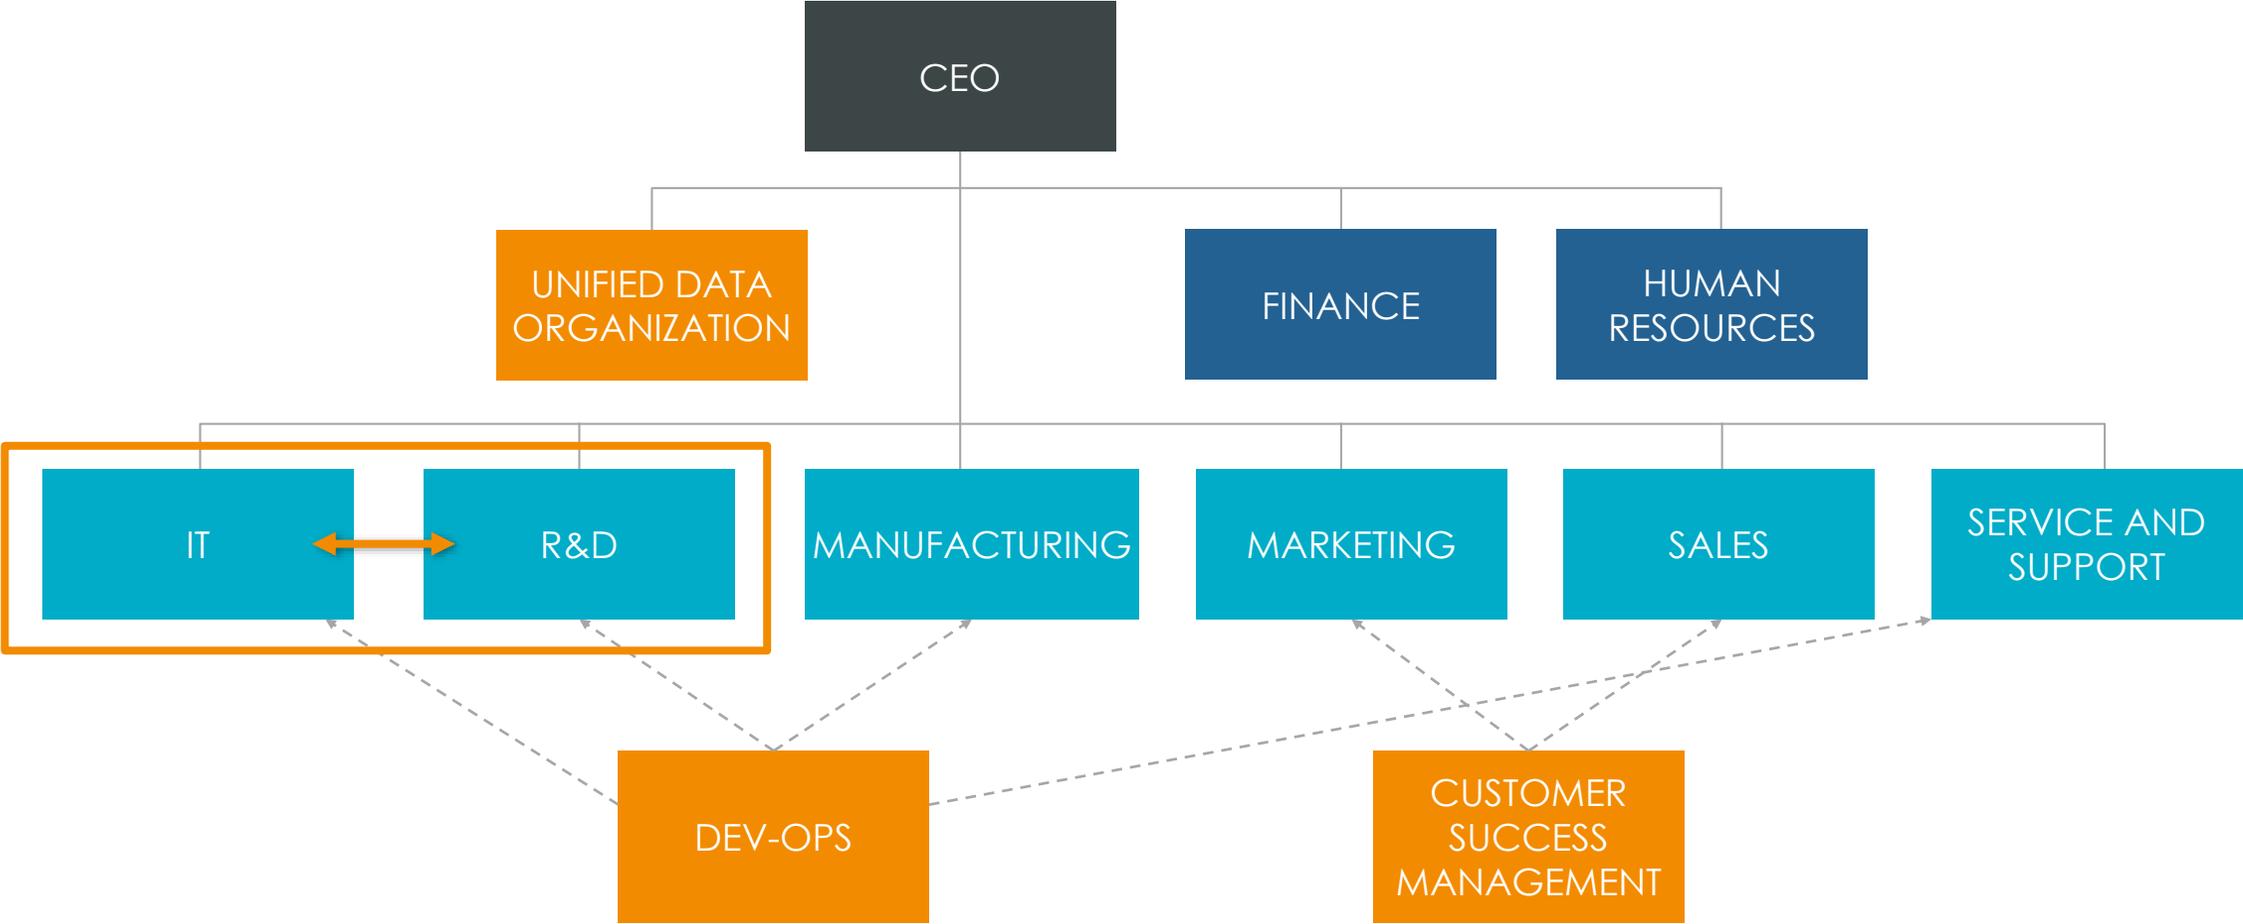

- Enterprise-ready Deployment Architecture
- Millions of connected devices

## SECURE

- Advanced Device Identity and Transport Security
- Platform-Wide Identity Management Including Single Sign-On

# ORGANIZATIONAL ADAPTATION, NOT JUST TECHNOLOGY

3

IS IT REALLY TIME TO CARE?

Satya Nadella thinks augmented reality is another big, long-term bet for Microsoft, that could be bigger than the smartphone. Launched **HoloLens**.

Tim Cook thinks Augmented Reality could be as big as the iPhone. Apple Recently announced iPhones 8 and X, designed to support AR and the **ARKit** software platform.

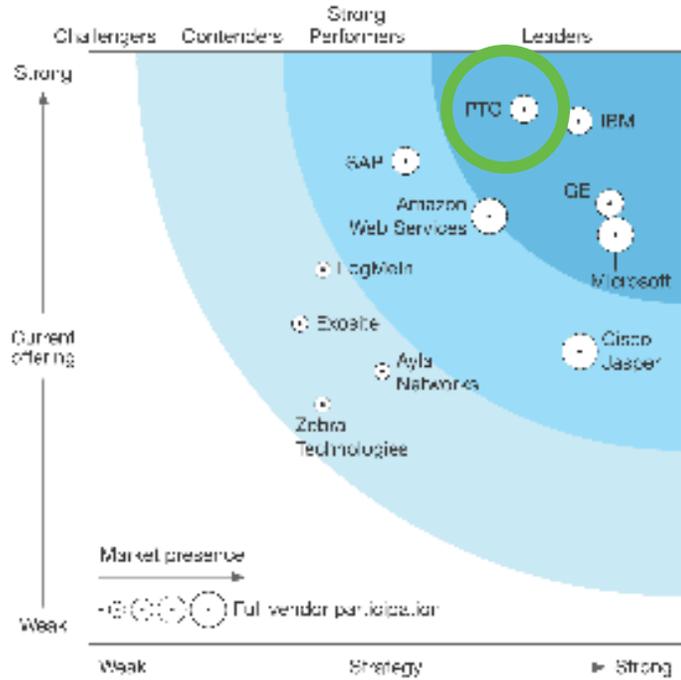

Sundar Pichai and Google recently announced Google Assistant, Tango, Google Glass II and **ARCore** for Enterprise Augmented Reality.

P.S. All three chose **PTC** to Help Accelerate the Adoption of AR in the Industrial Enterprise

Product Virtualization

Where is AR being applied today?

## Reverse Osmosis R18 Series

Top quality, fully assembled RO systems

Four models for flow rates up to 30 GPM

### Standard features

- Powder coated steel frame
- Electronic controller with feed and product water conductivity probes
- FRP side-port pressure vessels
- Non-metallic "Big Bubble" pre-filter housing
- Vertical heavy-duty multi-stage centrifugal pump
- Automatic reset valve
- Low pressure shut-off with automatic reset
- Tank level input
- Pre-treatment interlock input
- Adjustable recycle line
- Concentration alarm flash
- Pre-filter pressure gauges
- Pump discharge pressure gauge (liquid filled)
- Reject pressure gauge (liquid filled)
- Flow meter for product water
- Flow meter for reject water
- Flow meter for recycle water
- Check valves for product water

### Standard options

- UV System preplumbed pre or post RO
- Chemical feed pump installed and prewired

1118-01 shown with UV and chemical feed pre-treatment options.

### Specifications

Feed water connection	1" Flange
Product water connection	1.5" Flange
Reject water connection	1" Flange
Feed water pressure requirement (minimum)	55 psi
Flow requirement (maximum)	60 gpm
Motor horse power	10
Electrical requirement	200 VAC / 60 Hz
Phase	3
Amperage	30
Membrane life	12" x 40"
Typical rejection	98%

Other voltages available, please contact us for details.

### Models

MODEL NO.	PRODUCT GPM	RECOVERY (GAL)	MEMBRANE QUANTITY	FEED WATER REQUIRES (MAX)	DIMENSIONS L x W x H	SHIPPING (EST. LBS.)
1118-01-1131180	15	16 / 5%	3	30 gpm	60" x 27" x 42"	300
1118-04-1131180	20	16 / 5%	4	40 gpm	60" x 27" x 42"	350
1118-06-1131180	25	16 / 5%	5	50 gpm	60" x 27" x 42"	400
1118-06-1131180	30	16 / 5%	6	60 gpm	60" x 27" x 42"	450

### NOTICE

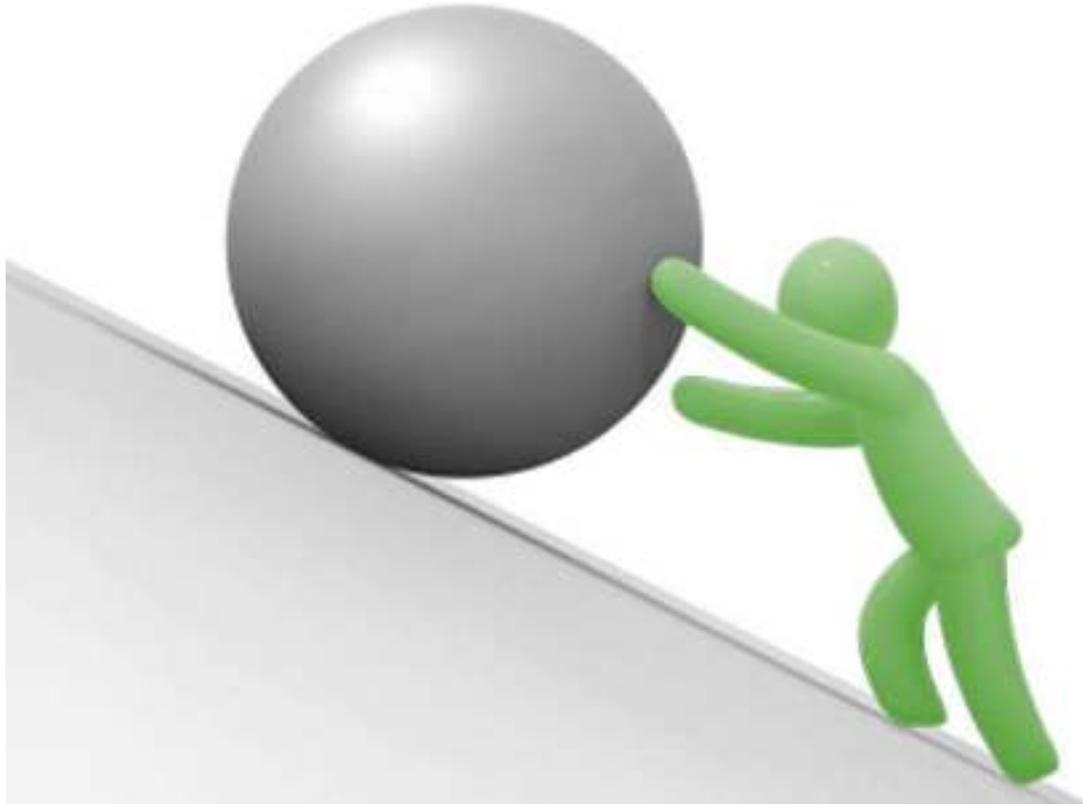

Performance specifications are based on 77°F feed water, 3.50 or less, TDS below 2000 and pH of 7. Please see water temperature conversion charts to determine actual production rate for each installation. Chlorine reduction and other pre-treatment may be required. Membrane rejection rates are based on membrane manufacturer's specifications. Pre-filter a Watts 201C-150-PS synthetic pleated cartridge. Systems are designed for use with municipal and well water.

For Configurator and Application Tools, please refer to the beginning of this catalog.

4

## WHAT'S THE CATCH?

- **Costly** to hire skilled programmers
- **Difficult** and **time consuming** to create compelling content
- **Overwhelming** to manage the explosion of purpose-built apps
- **Complex** to leverage IoT and business system data
- **Easy** to do once, **hard** to do at scale

**So what can Creo and ThingWorx do to help?**

5

# USING CREO AND THINGWORX IN AN IOT / AR STRATEGY

# creo<sup>®</sup>

is the future of Smart Product Design.

Industry leading  
CAD Capabilities

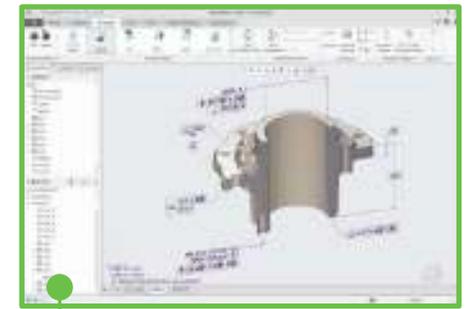

Design for  
Connectivity  
& IoT

Augmented  
Reality

Design for  
Additive  
Manufacturing

Model Based  
Definition (MBD)

# Design Smarter.

# CREO AR IS SIMPLE CONTENT CREATION AND DISTRIBUTION... AT MEANINGFUL SCALE

Free Options embedded in Creo Essentials and Creo Engineer package from 4.0 M10 & up

New Creo AR Design Share Module (Individual or Enterprise)

- **CAPABILITIES**

- Create & manage AR experiences
  - 5 Experiences, 6 month shelf life = Free
  - 10/50 Experiences, Unlimited shelf life = Module
- Administrative control = Design Share
  - Add and remove authors & viewers
  - Add and delete models (AR Experiences)

- **KEY BENEFITS OF DESIGN SHARE**

- Explicit, managed access control
- Protect IP by preventing access to CAD data
- Engage a wider range of stakeholders

# CREO AR ENHANCES CUSTOMERS EXPERIENCES AND DESIGN REVIEWS

## Share Design Experiences

Allow colleagues, partners & customers to consume design experiences in a more meaningful way

## Visualize Interactive Design Experiences

Creo AR allows immersive design data to be reviewed in context and at scale

# SHARE AR EXPERIENCES

## Challenge

Tedious process to prepare and package models for distribution and review

Inefficient process for design partners & collaborations to access data that they need

Loss of productivity preparing files to be shared

Loss of company IP

## Solution

*Creo AR allows you to rapidly define and publish AR experiences which can be distributed instantly*

Create AR experiences directly within Creo and share design data easily to distributed teams

Easily collect feedback from colleagues

Share design data without compromising IP

# VISUALIZE AR EXPERIENCES

## Challenge

*Inability to convey size and scale with traditional methods*

Inability to provide real-world context of how products operate

Limited support for interactive product demos

## Solution

*Creo AR allows for immersive design data with full context and scale*

Interact, explore and engage with design data

Generate excitement with interactive AR experiences
